

REMARKS/ARGUMENTS

Paragraph 31 is being amended simply to bring this into agreement with the corresponding paragraph in amended claim 1. It will be understood that no new matter has been added.

Applicants also take this opportunity to include an Information Disclosure Statement listing one additional reference that has come to applicants' attention as a result of prosecution of other applications. It is submitted that the claims are still fully allowable over all the known art, including this additional published European application. Accordingly, the Examiner is requested to review and make of record this reference.

Respectfully submitted,

BERESKIN & PARR
